Dec. 1, 1864.

MAUA BANK,

CALLE CANGALLO, Nos 101—103

The Offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques; part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given at the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta. Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brasils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 9 a. m. till 4 p.m.

Royal Insurance Company.

FIRE AND LIFE.

CAPITAL TWO MILLIONS STERLING.

This important company, in many respects the greatest of its kind in the present age, has appointed an agency in this city. The head-offices are in London and Liverpool with branches in Dublin, Edinburgh, Glasgow, Manchester, Bristol, Birmingham, Sheffield, Leeds, Newcastle, Southampton, Montreal, Toronto and other cities.

The ROYAL is remarkable; for the promptitude and liberality of its settlements: for the largest life bonuses (£2 per cent per annum) ever continuously declared during 15 years by any Co.; for the enormous extent of its transactions, shewing £7,00,000 in new life assurances for 1862, and a Fire revenue of £300,000 per annum; for its security, which has given rise to the proverb "as safe as the Royal;" for the accumulated funds in hand, over one million sterling; for its annual income over half-a-million sterling; and for the correct calculation of its mortality tables. Hence the English press of all countries, including over 90 leading papers, speaks in the highest terms of this company.

The report for 1862 shews that all the property of the Co. amounting to £846,070 is real and substantial property: " the amount now exceeds one million sterling. The increase, during 14 years, or Fire business was 900 per cent, and on Life 1350 per cent.

MESSRS. H. A. GREEN AND Co. are authorised to issue policies for Fire and Life to a very large amount, at moderate premiums, the Co. being anxious to extend its foreign business, which already shews an annual revenue of £200,000. Life claims can be settled without reference to England. For further particulars please apply to

CICERO.

TUESDAY, DECEMBER 20, 1864.

EDITOR'S TABLE.

On Monday morning a large troop of Government horses (Patrias) arrived in town; they seemed all in splendid condition. We have not heard for what object they were brought in, but suppose that some of the troops in the city have orders to march.

Sunday was an extremely hot day, the suburbs were crowded, as everyone seemed anxious to get a mouthful of fresh air. About ten o'clock a.m. the mole was crowded, as there was a report in town that the 'Quinteros,' Flores's steamer, was coming up, and steamed right for the Tigre.

Mr. Stephens, the engineer of the captured Brazilian steamer Marques de Olinda, called to us yesterday; his statement which is interesting will be found in another column.

The tempting terms which the Montevidean Government offers to foreigners to enlist in a foreign legion, it is thought will prove very successful. Agents for enlisting we understand are busy both in this city and in Montevideo; the Italians are chiefly the foreigners who are enlisting.

On Monday the arrival of bullock carts laden with wool from the south was unusually heavy; both plazas are now as crowded as they can be, but the farmers complain greatly of the illiberality of the buyers; the wool this year is infinitely superior to that of the last; money has become cheaper in England, and yet nevertheless the price of wool to-day is much lower than last season. Some of the sheep-farmers are determined to ship their wool at their own risk and expense, sooner than yield to the pretensions of the buyers.

The bullock cartmen are also loud in complaint, and have sent in a petition to Government to have a judge of their own choice elected, to decide all questions of freight, &c., they paying the judge his salary themselves; and we are only surprised that the petitioners did not ask for a 'tropero' to be named as the judge. We have no doubt the cartmen have to suffer many grievances, but the farmers have their share also. The plain fact of the matter is, that the neglect fo Government to build capacious sheds in each plaza, is the principal cause of all these complaints. Our wool plazas are the same to-day as twenty years ago. Neither the cartmen nor the farmers seem to be thought of by the Minister or Municipality. It is high time that some reform be introduced. We would suggest the construction of fine capacious depots, where if a farmer could not sell his wool within the first three days after the arrival of the carts, he could free of charge deposit his wool for a month, after which time if not sold, the usual storage to be paid. In other countries such conveniences are always afforded, and we see no reason why they should not be supplied here also.

The new justices of the peace for the town and camp have been at last named by the Government. Their names will be found in another column. They are nearly all the same as last year, and are supposed to belong to that peculiar school of politicians termed "Crudos."

We regret to inform our readers that of Sunday last, at about 12 o'clock, the camps took fire, and were burning up to the hour of going to press. How the fire originated has not transpired, but we hear it was first discovered close to Los Remedios, on Sunday evening, and at night the fire extended in the direction of Moron, and on Monday morning the whole country in that locality was in a blaze. We have not as yet heard if the fire has caused any loss of life or property, but hope and think not, as the thistles about there are not so thick as in other parts of the country; still it behoves the authorities to take the most ample precautions. Thistles this year are in many parts thicker than ever known before and in some places even higher than a man on horseback. Spontaneous combustion is difficult to credit — fires are far more likely to occur from negligence. A paper cigar thrown carelessly into a bed of dry thistles will fire a whole partido. The less smoking until the thistles fall the better.

Some of our subscribers in the south, we are sorry to learn, are being evicted by a French 'capataz,' in order to make room for French medianeros. The estancia which we refer to is one of the finest in the south, and belongs to a native gentleman, who has a great English connection. The Irish and Scotch farmers on this estancia have, by their untiring industry, converted a desert camp into a magnificent, well-stocked estate. We are surprised that so popular a landlord would be induced by a French employee to evict his English tenants.

Mr. Cranwell has opened an English apothecary store in Calle Rivadavia, No. 30. The owner's name is a sufficient guarantee to the public for the careful compounding of the medicines. We have no doubt Mr. Cranwell will be well supported by the foreign and native public, as none but first-class drugs will be admitted on the premises.

Madame Mitré has sent a letter to the Rev. Mr. Romero, acknowledging the receipt of $2,987, being the amount collected in Moron in aid of the Retiro sufferers.

We hear the Bank directors and some of our leading brokers are sorely vexed at the landlord of the house adjoining the Bank letting it to a dramatic company. The new theatre, which will shortly be opened there, will be something on the style of the 'Queen's,' in Dublin. The plays to be performed will be selected with a due regard to the locality of the theatre, and the first melodramatic piece, we understand, will be "The Banker's Ruin, or a Broker's Revenge."

Yesterday afternoon when the brokers were very busy liquidating, two horses broke away and ran down the street in the direction of the plaza; they frightened a cab horse, who also took to his heels, in front of Mr. Hart's office, coming in contact with a very nice "milord;" there was a squeeze, and a smash, but luckily a heroic Scotch sheepfarmer came to the rescue, stopped the fleeting cab, and peace was restored.

Mr. Thornton, the English Minister, was on 'Change yesterday, making a collection for the Bombay sufferers. The English merchants subscribed £10 each.

Our office was crowded yesterday with persons who came to see the San Juan silver; it will be on exhibition again to-day, and we advise our readers to inspect it; for it is the first slab of silver we have seen as yet from the provinces.

His Grace the Duke of San Fernando left on Sunday in the Pavon. We hope the noble Spaniard will not meet an ignoble fate near Frayle Muerto, but there is great danger.

There are at present 8 charitable subscriptions on foot, taxing rather heavily the generous sentiments of the public. We are glad to notice that Baron Mauá's Bank, Montevideo., has contributed $2000 silver for the poor families of Paysandú.

A dozen wounded Brazilians arrived last night from Paysandú in a miserable condition.

EXTRAORDINARY NEWS FROM THE URUGUAY.

PAYSANDU SAVED.

FLORES AND THE BRAZILIANS RETIRING.

Yesterday the steamer Uruguay arrived in port, bringing news from Paysandú up to Sunday morning. We confess that we were unprepared for the startling intelligence which the steamer brought.

The siege of Paysandú has been raised: the guns of the Brazilians which had been landed and erected for the bombardment of the town, have been re-embarked; when the steamer was leaving only three guns remained on shore, and the Brazilians were busy shipping them. Flores was mounting his infantry and preparing to clear out as a chasque had arrived informing him of an engagement between Caraballo and Saa, in which the former got routed; another fight is said to have taken place near Colonia, in which the Government party were also victorious.

It is so difficult at present to attach the least credit to any news circulated by either Blancos or Colorados, that several other items which we have received from questionable sources we abstain from publishing. The foregoing news we gathered from English passengers, who came down in the steamer, but whatever doubt there may be as to Saá's victory over Caraballo, there can be no question as to the following:

Paysandú is not yet taken.

The Brazilians are about to retire.

Flores, ditto.

Saá is advancing and has crossed the Rio Negro.

The mortality in Flores' army has been such that there is a rumor to the effect that Leandro Gomez poisoned his bullets, but we cannot believe this, and think it far more probable that it was owing to the great heat and the want of proper medical attendance. An English gentleman who arrived in the steamer describes the country surrounding Paysandú as strewn with wounded and dying soldiers. The steamer Gualeguay, or, as she is now called, Quinteros, brought down a number of Flores' wounded; some say 85, but others say not so many.

The conduct of the Brazilians is most inexplicable, for it is impossible to believe that their raising the siege could be instigated by fear. Either the foreign powers have interfered or the very active part Paraguay has taken, dictated the step.

Leandro Gomez is the gainer, however; his heroic defence of the little town, and courageous bearing when apparently deserted by his Government and left to perish in the town, has secured for him a name in the River Plate. If Flores flees from Paysandú, his prospects are gloomy indeed, and the speedy termination of the war utterly out of the question.

Better far that the unfortunate Paysandú had been levelled, and its heroic defenders buried in its ruins, than that the revolution should continue for another year, destroying the country, and ruining the unfortunate foreigners who were so foolish as to invest their capital in such a country.

LATEST FROM THE URUGUAY.

We have received the 'Uruguay' to the 15th, and 'Porvenir' 18th inst. also a new paper called 'Republicano' from Concordia: the last is neatly got up, and edited by Mr. Edward Gordon.

Concepcion, 15th inst. Nothing new from Paysandú. The besiegers remain completely inactive, waiting, as is supposed, for reinforcements. The garrison anxiously expects the arrival of General Saá. On Tuesday evening there was a benefit in our theatre for relief of the families on the island near Paysandú. A subscription is also on foot at Gualeguaychú for same purpose. The Arch-deacon of Paraná and Dr. Zarco have arrived to petition Government to make a railway from Paraná to Nogoyá: General Urquiza has promised to subscribe £10,000, and the Government will also aid the project.

Before Paysandu, 15th inst. Last night the Tevere arrived with the Vicar-apostolic, 3 priests, a doctor, an apothecary, and 4 Sisters of Charity, and large supplies for relief of the 2500 persons on the island: three women have been confined in the open air, and the sufferings of these people cannot be imagined. An estanciero brings intelligence that he saw General Saá on last Monday (12th inst.) with 2600 men crossing the Rio Negro at Correntino ford.

Dec. 18th. Two men have arrived with news that Saá has come up, Flores has retired, and several of his men dispersed. To-morrow we may expect to hear of a decisive engagement.

MONTEVIDEO.

December 16.

The destruction of H.M.S. Bombay has thrown a gloom over the city which has not been experienced for some years past. Amongst natives and foreigners, high and low, the whole conversation during the last two days and a-half, has been on this unfortunate loss. The officers of this ill-fated ship are to be seen walking our streets with a mixture of clothing on which would be ludicrous, were it not painful, to witness their state, which, to say the least of it, is not at all in keeping with the usual dress of her Majesty's officers. The behaviour of the Brazilian steamer Gerente has been universally condemned as most dastardly, inasmuch as she passed the Bombay whilst on fire, and although hailed did not offer assistance.

Subscriptions for the wounded, in defence of Paysandú, and for the impoverished and destitute families of that place are now being raised. Several patriotic gentlemen, strict adherents to the Government cause, have formed a committee among themselves. I have heard several foreign merchants express the fact of their having contributed to so humane a cause, but as it is not improbable that a good part of the money collected may be applied to the purchase of medals, decorations, &c., for the heroes of Paysandú, they wish it to be understood, that their contributions were purely *charitable*, donations for the benefit of *both* sides, and the destitute and bereaved families of some, and not for the heroes in question. The newspapers will, no doubt, publish a list of donors, and make a long comment on the number of partizans in their cause and infer that because a subscriber, the party must consequently be a sympathizer, but such is *not* the case. You will, doubtless, ere this, have seen the names in the newspapers of those gentlemen who are at the head of it.

THE BOMBAY DISASTER.

Montevideo, Dec. 15.

Last evening, at a meeting, it was proposed to appoint a committee to take into consideration the propriety of raising a subscription for the relief of the relatives of the victims by this dreadful calamity, and the following gentlemen were named the committee: Mr. Thomas Tompkinson, Mr. Charles McLean, Mr. J. H Ruding, Mr. Robert Andrews, and M. A. Delisle. This evening they will meet to make arrangements for carrying out such a laudable work.

I think that it would be well for you to propose that the same labour of love should also be got up in Buenos Ayres, where there is more capital and more Englishmen. I know they will respond to the call with open heart and pockets: set the thing in motion. Take into consideration that many of the poor fellows who have perished have left widows and orphans, and other near relatives who were dependent upon them for maintenance, and demonstrate to them that their countrymen, though so far separated from Old England, sympathise with those who need their pity.

December 16.

Since writing last I have gathered the following particulars about the Bombay from another source. The whole number on board was 623, the number missing is 83. The fire spread with such rapidity that in 45 minutes after the alarm was given every one who could, had left the ship, and the mainmast fell. Attempts were made to flood the decks, and the faithful marines were hard at work at the pumps and died there — one who was sent to order them to desist and save themselves, shared the same fate. There was about *eighty tons* of gunpowder on board, and it is supposed that about one third of the amount exploded. The wreck is partly out of water and it is supposed that the machinery and many of the guns will be saved. The officers and crew saved nothing but what they had on. Many of them have lost from fifty to four hundred pounds; the Admiral lost property to the amount of about two thousand pounds, besides all the ship's papers and important documents, which it will be impossible to replace. The Herschell has been chartered to take home the officers and crew that were saved from the wreck, which will detain her sailing until next week: she will take no other passengers, but will stop at her regular ports on her way home as usual.

HIGHLY IMPORTANT.

THE QUINTEROS SEIZED BY GOVERNMENT.

On Sunday morning the steamer Gualeguay, yclept Quinteros, appertaining to the redoubtable fleet of Flores, entered the Tigre at full speed, with the highest steam pressure possible. Her cargo consisted of a number of unfortunate men who, forgetting that revolutions have been the cause and ruin of this country, had enlisted under the unjustifiable banner of rebellion. She had hardly discharged her cargo when the officers of the National Government with drawn swords and a picket of men seized the vessel, and made prisoners of the crew, who have been sent on to Buenos Ayres, and are lodged in the carcel.

We highly approve of this spirited act of President Mitre: the Gualeguay was declared a pirate by the legal government of Montevideo, she sailed under the Oriental flag until some foreign gunboats intimated their intention to fire on her, she then hoisted the Argentine flag, and subsequently changed again and hung out the Oriental flag. The Argentine National Government deserves every praise for at once seizing a steamer of such variegated colors. The colorado party in town are furious at the act, but we, who belong to neither party, consider that President Mitre has acted in this matter as becomes the dignity of the Argentine nation. The Quinteros will probably be condemned as a good prize and sold at auction by Mr. Billinghurst to the highest bidder.

CAPTURE of the MARQUES DE OLINDA

THE ENGINEER'S STATEMENT.

We left Buenos Ayres on the 4th of November, and arrived at Asuncion on the 11th. There were no fire-arms or munitions on board, as falsely rumored, but a sum of 400 contos of reis (£40,000) in paper money. Among the passengers was the President of Matto Grosso, just appointed to command of that province. They made no difficulty in Asuncion at our arrival or departure, but when 54 leagues above that capital, the Tacuari war-steamer hauled us to, and obliged us to return to port, where the vessel was duly seized, and the passengers made prisoners, a guard of nine men and an officer being placed over us: this guard was afterwards increased to fifteen. We were all supplied with provisions by the Capt. of Port, but allowed no communication with the shore. After a few days some of those on board began to suffer from bowel-complaints, and the officer informed the authorities that he believed it was the water, which in port is unwholesome.

The Government despatched Dr. Skinner, army-surgeon, twice a day to visit the prisoners and order them medicine, under which treatment they soon recovered. There was no unnecessary harshness, but rather every politeness consistent with our position.

The officer of the guard informed me that I could obtain my liberty by leaving the ship, but not permission to go ashore, and return as I wished. I therefore waited on the commander, and he desired me to postpone my departure for a few days, thinking the steamer was detained only as a hostage for the safe return of the Paraguari. But when the latter arrived from Buenos Ayres and we were still detained, I resolved to write to the Comandancia Maritima, with permission of my commander, and in a few hours a boat came alongside, apprising me that I was at liberty and waiting to convey me and my luggage ashore.

During my stay at Asuncion I visited the arsenal, and saw them actively casting bombs, rifling cannon, and making great preparations for war. I was quite astonished at the respectable turn-out of the soldiers; I saw 3,000 of the garrison on drill at the hospital-ground, all armed with Minié rifles. The discipline and equipment of the army is far superior to anything of the kind in these countries. President Lopez was at Cerro-Leon with 25,000 troops in encampment, the telegraph wires are pushing on rapidly to Villa Rica, and will be also finished in a few days to Humaytá and the frontier of Corrientes.

The sharpshooters are of deadly aim, able to pick down an Indian, 700 yards distance, at full gallop. The new shells are of peculiar cast, and will explode on touching the side of a vessel or of a wall. Paraguay is evidently bent on a great war, and no one in Buenos Ayres has any idea of the great nerve and tremendous resources of President Lopez.

I met with much annoyance from the police in getting my passport, but was not notified to depart within a fixed term. I took a sailing vessel to Corrientes, where I arrived in seven days. Here I observed much anxiety as to the movements of Paraguay. I embarked in the Esmeralda on Tuesday, 13th December, and arrived in Buenos Ayres on Saturday.

The port of Asuncion was closed until the 28th ult., and then re-opened no fewer than 7 sailing craft starting for down the river. I was surprised at Humaytá to find they knew everything about my adventures, and the Government seems to have swift couriers all over the country. I heard about the seizure of the Argentine schooner Virginia, which had a ton of gunpowder on board, contrary to the regulations.

WILLIAM STEPHENS,
Chief Engineer of the Marques de Olinda.

FALSEHOODS AGAINST PARAGUAY.

The engineer of the Marques de Olinda, begs to say that the following statements of the "Nacion Argentina," and other papers, are incorrect and destitute of foundation:

1st. It is untrue that I was ordered to leave Paraguay within *five hours*, or that any term was given me to depart.

2nd. It is untrue that the prisoners on board the Marques de Olinda are treated with cruelty.

3rd. It is untrue that three Portuguese children were left to starve, or otherwise maltreated.

4th. It is untrue that the prisoners were left without medical care, or denied relief, or given unwholesome food.

N.B.—I will say, in conclusion, that the prisoners of the Marques de Olinda expressed their surprise and admiration at the politeness and urbanity of the officers and guard placed over them.

WILLIAM STEPHENS,
Chief Engineer.

LATEST FROM CHILE.

Thanks to the exertions of an English merchant of this city, at present in Valparaiso, we have at last succeeded in getting a Chilian exchange. We have received the 'Mercurio' of Valparaiso up to the 21st November last.

The news from Peru is, as usual, unsatisfactory. The President despatched a deputation to wait on Admiral Pinzon, at the Chincha Islands, begging of him to enter into negotiations, which the Admiral refused, asserting that he had no instructions. The South American Congress has done nothing, and arrived at no resolution. The Peruvian press takes part with Brazil in the Montevidean question: not so the Chilian journals. H.B.M. steam-corvette Alert, arrived at Valparaiso from Callao. On the 3rd of November the Congress of Lima introduced a bill declaring war against Spain, repealing the law of September 9th, which authorized an amicable arrangement, and ordering the Executive to recover the Chincha Islands by force of arms!

The British barque Mendoza encountered an awful gale off Cape Horn, and reports that the Scout, from Swansea, for Valparaiso, had to put into the Falkland Islands, as an extraordinary heat was felt on board and it was feared her cargo of coal was on fire.

The Montevidean Opera Company, under Mme. Manzini, is performing at Valparaiso. Several Chilian merchants attempted to procure foreign flags for their vessels, fearing Spanish reprisals, but the various Consuls refused.

The Pacific mails bring word that Gen. Carreras has arranged to annex Guatemala to the Empire of Mexico, but it is *hoped* the other Republics of Central America will not follow suit. War is about to break out between Ecuador and New Granada, some troops of the former having crossed the frontier and pulled down the Columbian flag. In California a terrible drought prevailed, most of the crops and cattle perishing: gangs of freebooters were knocking about, and some travellers found two men hanging from a tree at Snelling's Ranch. The gold and silver mines are going on well, and great salt discoveries have been made at Sierra Nevada.

AUCTION, BY R. BALCARCE & Co.

To-day, at 11 o'clock, will be sold at auction, in calle Victoria, No. 287, some excellent Pianos and Furniture. Those who may feel interested would do well to be present.

GODEY'S LADY'S BOOK.

The numbers for September and October have been sent round. The engravings of the 'Young Draught-players,' and the 'Baby Asleep,' are very pretty. The pictures of fashions for ladies and children comprise a great variety, as also the models for needle-work and crochet. There is an amusing carteon entitled 'Leap-year,' in which hosts of sprightly girls are teasing the old bachelors in the most persecuting manner. The reading matter is well-selected; the 'Minister's Wife,' 'Wanted, a Companion,' and 'Dana's Temptation,' are gracefully written by lady contributors. The 'Miscellaneous Chapter' is also replete with odds and ends of valuable information, and the 'Lady's-book' is, indeed, well worth $80 m/c per annum, each month containing 80 pages. Mr. Brill informs us that he now receives it by the packet, which renders its distribution to subscribers more regular than before.

LIVERPOOL TO VALPARAISO.

QUICKEST PASSAGE ON RECORD.

The Pacific steam-packet Payta left the Bell Buoy, Liverpool, Oct. 15th at 1.57 p.m. arrived at Madeira on the 20th at 9.15 p.m. Time: 5 days, 7 hours and 18 minutes. After a delay of 13 hours 45 m. she left for St Vincent on the 21st at 11 a.m. arriving there on the 25th at 3.45 a.m. Time, 3d. 16h. 45m. She delayed 15h. 55m. and started for Montevideo on the same day at 7.40 p.m. arriving at the latter port, Nov. 7th at 3.30 p.m. Time, 12d. 19h. and 50m. Delay at Montevideo 1d. 20h. 15m: left for Valparaiso on the 9th at 11.45 a.m. and arrived there, 19th Nov. at 6 p.m. Time, 10d. 6h. and 15m.

Passage from Liverpool to Valparaiso 35d. 4h. and 3m: deduct delay in port 3d. 1h. and 55m. and stoppage 11h. 9m. Time under steam 31d. 14h. and 59m. Greatest speed 17 miles per hour, average do 12¼ miles.

Excepting a strong S.W. gale on the 3rd day after leaving Liverpool the weather in the Atlantic was generally very fine. On entering the Straits of Magellan until reaching its narrowest part, we encountered a contrary wind, high sea, and hail-storms which with a current of 7 miles per hour greatly checked the march of the steamer. From leaving the Straits until arriving at Valparaiso we had a head wind and stormy weather, but the vessel always displaying first-rate sea-going qualities: she has excellent accommodations for passengers.

The dimensions of the Payta are as follows: length 163½ feet, beam 38½, depth of hold 15 feet, tonnage 1344½ tons, horse-power 400.

At San Vicente the steamer's agents had everything ready, and she took aboard 290 tons coal in a few hours. In the passage to Montevideo she made splendid sailing, going 313 nautical miles (362½ English) in 24 hours. At Montevideo she took in 364 tons coal and 45 of water. On the 13th Nov. at 8.30 p.m. she sighted Virgin Cape, at Magellan Straits in very rough weather; the scenery of the Straits is described as most picturesque and the navigation very difficult. She got into the Pacific at 6.15 of the 15th, and entered Valparaiso on the 36th day from Liverpool.

Paper money improved to-day, and specie would have suffered a much greater decline than five centissimos, but for the news from Paysaneú. None were prepared for it, owing to the overwhelming force brought against the town it was generally believed that it must fall, but it has been rescued by Saá, and merchants, bankers and brokers behold with regret the prolongation of this unhappy struggle, when all had hoped it would have been decided at Paysandú. The political state of the River Plate is giving rise to the most serious alarms, which have the most prejudicial effect on business of all kinds.

In Exchange on England several bills have been passed at 49¼, but the regular quotation is 49¼. About one hundred and eighty thousand pounds have been passed.

The Wool market is very dull to-day: we did not hear of a single sale of importance.

A cargo of coal, ex Queen-Bee, was sold at 13 patacons.

MEDICINE FOR THE POOR.

Radway's Ready Relief is the poor man's best friend, for it will relieve him of pain in a few minutes, and cure him if sick without loss of time. If the laborer, the mechanic, sailor, woodcutter the boatman, the farmer, the merchant, the student or the professional man is seized with pain or is sick Radway's Ready Relief will cure him quickly. No one day in a year need be lost by sickness, if this medicine is used when pain or discomfort is experienced. It should be in every hut, cabin, house, place, shop, camp, barge, canal boat in the land. Price 25 cents per bottle. Sold by Druggists and Storekeepers everywhere.

BENSON'S WATCHES AND CLOCKS.

Watch and Clock Maker, by Special Appointment, to His Royal Highness The Prince of Wales.

Opinions of the London Press upon Benson's Great Clock and Watches in the Exhibition, 1862.

"As a sample of English clock work on a large scale, the works of this are probably the finest finished that have ever been seen in this country. No Chronometer could be fitted with more perfectness or carefully adjusted mechanism."—Times, June 11 1862.

"A triumph of ingenuity."—Telegraph March 11 1862.
"A more splendid and exquisitely finished piece of mechanism we have never seen."—Standard, June 17 1862.
"Some of these are of great beauty and if the English watch-trade only follow up with the same spirit and success this first attempt to compete with foreigners in decorative watches, there seems to be no reason why we should not get the trade entirely into our own hands."—Times, June 22, 1862.
"Ranged around the base of the clock were the Watches which Mr. Benson exhibited, and which have been universally admired for the beauty and elegance of the designs engraved upon them. The movements are of the finest quality which the art of horology is at present capable of producing. The clock and watches were objects of great attraction, and well repaid the trouble of an inspection."—Illustrated London News, November 8, 1862.

SAVINGS BANK.

BANK MAUA AND CO.

No. 103 Calle de Cangallo,

BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá and Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that most important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling in lotteries, and other frivolities.

The Bank of Mauá and Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and will open a Savings Bank at No. 103 Calle Cangallo, from Nine a.m till Three p.m on Week Days, and on Sundays and Holidays from Ten a.m. to Twelve m., for the reception of the savings of the classes already mentioned.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.

The Bank of Mauá and Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles; and always directed to promote the general welfare.

The Bank of Mauá and Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighbourhood.

Buenos Ayres, September 19, 1863.

P.p. Mauá and Co.
WILLIAM LESLIE

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p 0/0) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishes, can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book, it can be replaced by another on paying five dollars currency, and advertising the loss in the public newspapers.

Holloway's Pills.

ENJOYMENT OF LIFE.

When the blood is pure, its circulation perfect, and the nerves in good order, we are well. These Pills possess a marvellous power in securing these great secrets of health by purifying, regulating, and strengthening fluids and solids. Holloway's Pills can be confidently recommended to all persons suffering from disordered digestion or worried by nervous fancies or neuralgic pains. They correct acidity and heartburn, dispel sick headache, quicken the action of the liver, and act as alteratives and gentle aperients. The weak and delicate may take them without fear. Holloway's Pills are eminently serviceable to invalids of irritable constitution, as they raise the action of every organ to its natural standard, and universally exercise a calming and sedative influence.

TOBACCO de la PALMA,

Is an article entirely different from any other in present use, and solely manufactured by the undersigned at their Steam Tobacco Manufactory.

Containing no Paraguay Tobacco it is free from that peculiar bitterness usually encountered in Tobacco heretofore manufactured in this country for "pipe" use, while its strength is comparable with that of the American Tobacco.

Being nicely cut, it prevents this unnecessary trouble to the consumer, and packed in "tins," of convenient size with adjustable covers, there is less to fear from drying than with other Tobaccos. Two very important considerations, particularly with those residing in the camp. It can, however, be obtained in packages of 1 lb each.

At the manufactory can also be found Tobacco-fuerte-colorado for cigarillos, and Tobacco Frances of the best quality at exceedingly low prices.

The "Tobacco de la Palma" can also be purchased at the following well known establishments.

HEALTH FOR THE INVALID
BY
HOLLOWAY'S PILLS.

LOSS OF APPETITE—LOSS OF STRENGTH—LOSS OF HEALTH.

The marvellous effect of this fine medicine upon the system is such as to immediately rally all the vital functions, the appetite is soon restored, a full flow of spirits quickly follows, the body becomes immensely invigorated with a certainty of restored health: fresh air and a little exercise are necessary to bring about a permanent state of things. Holloway's Pills impart tone and energy to the most delicate constitutions, and in a manner as to astonish all who take them. By their extraordinary virtues they have obtained the largest sale of any medicine in the world.

HEAD, LUNGS, AND STOMACH.

Look to the regularity of the functions of these foundations of vitality. Holloway's Pills restore to order the slightest departure from the proper action, and therefore may be considered as the regulators of the main spring of human life. Apoplexy can always be prevented if the proper action of the bowels be attended to, which this famous medicine never fails to accomplish. Disorders of the head and heart often terminate suddenly and fatally from obstructions in the system, which might generally be prevented by taking small and regular doses of this fine corrective.

FEMALE DISORDERS.

No medicine can be so infallibly relied upon for overcoming all obstructions as these Pills. They never fail to restore a healthy action throughout the system. The printed instructions will enable all to correct the first symptoms of disease, and avert many serious maladies. Holloway's Pills soon change the sickly and sallow complexion, thus renewing the bloom of health. To females entering into womanhood, or at the turn of life, these Pills will be found invaluable. They should be taken two or three times a week as a safeguard against dropsy, headaches, palpitations of the heart, and all nervous affections, so distressing at certain periods.

SICK HEADACHE; INDIGESTION OR FOUL STOMACH, AND DISORDERED LIVER.

In such a deranged state of health the food is decomposed instead of being digested, and proves poisonous rather than nutritious. This derangement can be at once set right by a course of these purifying and digestive Pills, which have acquired for themselves an imperishable fame for the mastery they have constantly exercised over the digestive organs. Holloway's Pills increase the appetite, regulate the liver, repress biliousness, healthily stimulate the kidneys, and move the bowels in a more wholesome and natural manner than any other medicine.

DISORDERS INCIDENTAL TO CHILDREN.

The liver and stomach of children are, from many causes, often out of order, as they are allowed to eat many things that would disagree with their parents, hence their blood becomes impure, and liable to take any disease that is prevalent, and that in the worst form. One Pill, reduced to a powder, and put into a little water, given occasionally to children of twelve months old, and to those of three or four years; three Pills, and to others of seven years of age, four Pills—will always make children look blooming and healthy. Seventy-five out of every hundred do not reach the age of maturity. Holloway's Pills would not only preserve their health, but save the lives of thousands. Many people foolishly think that children only require a little medicine twice a year.

Holloway's Pills are the best remedy known in the world for the following Diseases:—

Ague	Female Irregularities	Rheumatism
Asthma	Fevers of all kinds	Retention of Urine
Bilious Complaints	Fits	Scrofula, or King's Evil
Blotches on the Skin	Gout	Sore throats
